The Oceanário is the second largest aquarium in Europe. It has huge pools that are home to manta rays, penguins and sharks, as well as adorable otters floating around on their backs.
**LISBON NIGHTLIFE**

- Traditionally, the nightlife center has been **Bairro Alto**, with its *fado* clubs, traditional, canteen-style bars, and upscale discos. The simplest thing is to walk in and out of a number of them if the place looks especially inviting. Rua da Atalaia is one of the more lively streets. The bars are open until 0400, often with lock-ins.

- Much of the action has moved on to the **Docas** (Docks) district, just to the east of Ponte 25 de Abril. One bar after another occupies a row of converted warehouses at the **Doca de Santo Amaro**, with a crowded promenade and tables out front. Back towards the city the **Doca de Alcântara** has emerged over the last few years as the new place of choice for Lisbon's moneyed professionals and 'in' crowd. At around 2:00 many locals head to the multitude of Lisbon discos, which rock until 6:00 or later, in the nearby Avenida 24 de Julho.

- Located right by the harbor, (east from Praça do Comércio and just opposite to the old train station of Santa Apolónia), there is a popular and very cool retro bar, **Lux**, which has been fitted out with furniture from 30 years ago (42, R. Gustavo Matos Sequeira, Santa Apolónia).

- The Port Wine House (**Solar do Vinho do Porto**) is located in an 18th-century palace that takes up an entire city block, and is filled with several hundred varieties of Port available by the glass or bottle (45, Rua de São Pedro de Alcântara, near Bairro Alto).

- **Fado** is a form of music that developed in Lisbon in sailors' bars in the late eighteenth century. Some of the best places to listen to these ancient Portuguese folksongs are:
  
  $$$ **Senhor Vinho** Meio-a-Lapa, 18 tel: 21 397-2681
  $$$ **A Severa** Rua das Gaveas, 51-61 tel: 21 346-40-06
  $ **A Parreirinha de Alfama**, Beco Espírito Santo, 1, Alfama, tel: 21 8868209.

**WHERE TO EAT**

**Traditional cafes / Terraces:**

**A Brasileira**

Rua Garret, 120, Chiado
A fashionable and historic coffee shop that dates from the late 1800's. A favorite for artists, poets and free thinkers looking for that perfect cup of coffee, light dining options and desserts or a good beer selection.

**Bar Cerca Moura**

Largo das Portas do Sol, 4, Alfama
Great views of the river make this nightspot a delight any time of the year. Good ambience, wide selection of drinks and pleasant regulars. It opens 4.00 pm and closes at 2.00 am. Many youths stop by before carrying on into the night.

**Café Pasteis de Belém**
Rua de Belém, 84, Belém

This is the only place to get the original "Pasteis de Belem" which are small, creamy pastries with cinnamon on top. The cafe opened in 1837 and is still going strong today, with over 14000 "pasteis" produced every day, following a very closely-guarded recipe known only to three people in the world (or so they say).

**Restaurants:**

The food in Lisbon is very rich and varied. Fish and seafood abound in the "lisboeta" cuisine because of the fishing traditions of the Portuguese capital. Try the bacalhau (cod fish), it's prepared in a variety of ways, all of them delicious. Traditional sweets are also very varied and tasty.

**III. UPDATED INFORMATION ON THE COMMITTEE TO PROMOTE STUDENT INTERESTS DINNER**
• **The Open Dinner Meeting with the Committee to Promote Student Interests - ALL SPR student members are welcome!**

  Date: Friday, September 23
  
  Time: 7:30pm
  
  Location: TBA: Look on the Meeting Message Board; Please indicate interest in attending by emailing John Allen at jallen@u.arizona.edu

The SPR Student Interest Committee Dinner meeting, open to all SPR students and early career members, will be held Friday night Sept 23 from 7:30-10:00. The location will yet be determined. Interested members please contact John JB Allen, at jallen@u.arizona.edu.

The annual meeting is a great chance to get involved with SPR. Learn about SPR's student initiatives, help influence SPR's future directions, and eat good food and drink fine beer. Do you have suggestions for improvements in student outreach? Would you like to work with one of our many subcommittees on issues relevant to your research? Please come with your appetite and opinions!

In addition, there are the usual opportunities to meet and mingle with other students and SPR members:

• **The Student Social:** time and date for this year's festivities remain to be determined, but if past years are any indication, it's an event not to be missed. Keep your eyes peeled for more information as it becomes available!

• **Special Interest lunches and dinners:** these events are a wonderful way to connect with others who share your research interests. These events are organized on an ongoing basis and are announced in various ways (over email, on the website, and posted on the message board at the conference), so keep your eyes peeled for topics that pique your special interest. Remember, these are typically no-host meals, which means bring your own funds.

**IV. EARLY CAREERS CONVERSATION HOUR**

**RSVP requested prior to September 8, 2005!** Date: Thursday, September 22nd
  
  Time: 6:00pm - 8:00pm
  
  Location: Sala I room at the FIL Meeting Centre

Learn more about building a successful career in psychophysiology! This event will provide an opportunity for students, post-docs, recent graduates and researchers to discuss issues facing folks at the early stages of their careers. Senior and junior investigators will be available to share some of their advice and experiences. *A buffet dinner will be provided for all registered participants.* Please send your RSVP and any questions/suggestions to Rebecca Houston (rhouston@ria.buffalo.edu).
V. SPECIAL ANNOUNCEMENT FROM OUR INTERNATIONAL SUBCOMMITTEE:

Please watch for an informal meeting of European Student Members (there will be a note regarding when and where at the message board of the conference) where we will discuss establishing a European student network. One goal of this informal meeting is to recruit volunteers in each European country as contact persons who would gather or spread information (e.g. grant possibilities, regulations concerning clinical training, PhD Programs, etc.) in their European country. This network could contribute to the integration of psychophysiology in Europe. Further functions of such a network should be discussed at this meeting.

Please feel free to contact any members of the International Subcommittee or the Committee to Promote Student Interests with questions or ideas. Contact information is listed on the student’s web of SPR. We hope to see you at the upcoming meeting in Lisboa!

VI. UPDATE FROM THE STUDENT RETENTION SUBCOMMITTEE:

The Membership Retention subcommittee was formed in response to concerns that the retention rate of female student members may be disproportionately lower than retention rate of male student members. We have been working with the Rees Group to obtain statistics regarding membership patterns. Records indicate approximately 60% of current student members are female, but that only about 30% at the full membership level are female. Whether these data indicate that SPR has a specific problem retaining female members will be the focus of the committee’s efforts. Additional factors that may underlie these female membership statistics are a growing population of female graduate students interested in psychophysiology and the possibility that the full membership data are representative of the gender distribution across faculty in psychophysiology-related academic fields more generally. In upcoming months, we hope to obtain more data in order to investigate factors associated with this observed membership pattern.

VII. MEMBERS OF THE COMMITTEE TO PROMOTE STUDENT INTERESTS

Are your needs being met? Please feel free to contact members of the committee below with suggestions, questions, comments, or to bond with a fellow psychophysiologist:

Faculty Chair

John JB Allen, University of Arizona, jallen@email.arizona.edu

Web Subcommittee

This subcommittee maintains and develops the SPR student website. They integrate content from other subcommittees, as well as develop new content as appropriate.
Newsletter Subcommittee

This subcommittee updates and prepares the semi-annual newsletter. The newsletter highlights items of special interest to students, and is timed to go out to members in electronic form in April, and again in August. These deadlines are timed with respect to two major SPR events that the newsletter can highlight for students: May 1 is the deadline for submitting an abstract, and the fall SPR meeting is in most often October, with student poster competition deadlines about one month prior to the meeting. The newsletter will highlight activities of other committees (e.g., Interview), as well as develop content as the committee sees fit.

Interview Subcommittee

This subcommittee will interview two SPR members per year. Stephan Moratti conducted a very nice interview with Brigitte Rockstroh, our first interviewee. We have a list of questions that was developed with the assistance of many members, and one that can form the core of any interview, with additional questions to be added as appropriate. At our recent meeting in DC, committee members suggested that it would be good to interview a post-doctoral fellow or new faculty member, and also to specifically inquire about the job market and interview/hiring experiences. The interviews ideally should be completed in time to highlight in each newsletter.
**International Students Subcommittee**

*International students comprise a substantial proportion of the student membership, but also appear to be less likely to remain members after graduation. There are likely a variety of factors responsible, but the International Students Subcommittee can examine ways in which SPR can better address the needs of international students. Stephan Moratti developed an international exchange web page that allows interested labs to host students from other laboratories. Worth considering is that the 2005 meeting is in Lisbon Portugal. As that meeting draws near, one of the things the subcommittee can do is to make sure that student needs and interests are anticipated for this European meeting. The last European meeting in Granada, Spain was very popular and appeared to attract many European students.*

**Stephan Moratti** (Chair), University of Konstanz, [Stephan.Moratti@uni-konstanz.de](mailto:Stephan.Moratti@uni-konstanz.de)

**Allison Waters** (nonstudent), Griffith University, Queensland, Australia, [n.waters@griffith.edu.au](mailto:n.waters@griffith.edu.au)

**Rogier B. Mars**, FC Donders Centre for Cognitive Neuroimaging, [rogier.mars@fcdonders.kun.nl](mailto:rogier.mars@fcdonders.kun.nl)

**Anna Goudriaan**, University of Amsterdam, The Netherlands, [AE.Goudriaan@psy.vu.nl](mailto:AE.Goudriaan@psy.vu.nl)

**Post-doctoral "Student" Subcommittee**

*Postdoctoral students have specific needs that overlap with those of student members. Recent efforts of our committee led to a reduced fee structure for recent graduates, but surely there are other issues that our committee might address.*

**Rebecca J. Houston** (Chair; nonstudent member), University of Buffalo, [rhouston@ria.buffalo.edu](mailto:rhouston@ria.buffalo.edu)

**James A. Coan** (postdoctoral student), University of Wisconsin/Virginia, [jacoan@wisc.edu](mailto:jacoan@wisc.edu)

**Augusta Shestyuk**, Harvard University, [shestyuk@wjh.harvard.edu](mailto:shestyuk@wjh.harvard.edu)

**Meeting Events Subcommittee**

*Each year we attempt to find a local student host for the annual meeting. This local host finds info on cheap eats, cheap excursions, and cheap transportation to the hotel. The student host also assists in finding a*
place for the SPR sponsored student social, and does whatever else seems appropriate to make the conference fun, informative, and affordable for students.

Paula Carneiro (Chair), Universidade Lusófona de Humanidades e Tecnologias, mpcarneiro@hotmail.com

Eynav Elgavish, University of Arizona (past Chair), eynav@email.arizona.edu

**Program Committee Representative**

*Each year one of our student members sits on the program committee to ensure that the student voice is represented. This position also allows the student member to get an inside glimpse of the meeting planning, involves reviewing abstracts, and begets the immense gratitude of the membership.*

Andrea Chambers, University of Arizona, andreach@email.arizona.edu

**Membership Retention Subcommittee**

*Works to identify issues affecting the retention of members, especially those of relevance for women.*

James A. Coan (postdoctoral student), University of Wisconsin/Virginia, jacan@wisc.edu
**Clinical Psychophysiology Subcommittee**

Students enrolled in clinical programs face an additional set of demands and concerns, and this new subcommittee is working to provide a forum for discussing these issues. Topics of interest include discussing clinical applications of psychophysiology (especially new paradigms, etc) and issues specific to being in clinical programs while conducting psychophysiological research (e.g., accruing clinical hours, applying for internships, post-docs, etc.). The committee is hosting a special interest lunch at this year’s annual meeting.
